OBJECTIVE

Full Stack Web Developer with strong expertise in Laravel, PHP, JavaScript, and MySQL. Passionate about building scalable, high-performance web applications and solving complex problems with clean, efficient code. Skilled in modern backend architecture and database management, with a proven track record of delivering client-focused solutions. Eager to leverage skills in a challenging engineering role.

EDUCATION

The University of Lahore

Lahore, Pakistan

Bachelor of Science in Software Engineering (BS-SE)

2023 – 2027

- Coursework: Data Structures, Analysis of Algorithms, Object-Oriented Programming, Database Systems, Web Engineering, Artificial Intelligence

EXPERIENCE

Full Stack Developer Intern

March 2026 – April 2026

DeveloperHub Corporation

Islamabad, Pakistan

- Contributed to web application development using modern frameworks and technologies in a professional software house environment.
- Collaborated with the engineering team on full stack features spanning backend APIs, database design, and frontend UI integration.

PROJECTS

Gari Ghar – Car Showroom Management System | *Laravel, PHP, MySQL, Bootstrap*

2024

- Developed a full-featured web application to manage vehicle inventory, sales, and customer inquiries.
- Implemented secure authentication and role-based access control for admins and staff.
- Designed an admin dashboard for real-time stock tracking, sales reports, and user activity monitoring.

Agri Khata – Fertilizer Management System | *Laravel, PHP, MySQL, Tailwind CSS*

2025

- Built a digital ledger system for fertilizer inventory and dealer sales management.
- Automated billing and stock calculations, reducing manual errors by approximately 40%.
- Designed a clean, intuitive UI with secure user authentication and access-controlled workflows.

TinyOS Memory Analyzer | *Python*

2026

- Developed a Python-based tool to visualize and analyze RAM and ROM usage in TinyOS applications.
- Engineered algorithms to detect memory overflows and optimize embedded resource allocation.

TECHNICAL SKILLS

Languages: PHP, Python, JavaScript, C++, SQL, HTML5, CSS3

Frameworks & Libraries: Laravel (Advanced), Flask, jQuery, Bootstrap, Tailwind CSS

Databases: MySQL, PostgreSQL, MongoDB, SQLite

Tools & Technologies: Git, GitHub, VS Code, Postman, XAMPP, Composer, Linux (Ubuntu, Kali)

CERTIFICATIONS

Full Stack Development Intern Certificate — DevelopersHub Corporation, March 2026 – April 2026
